

White Paper

DRILL

What in Tarnation is this About?

The journey begins.

For over five years, the idea of Drill has been brewing and now it's ready to step into the world and shake things up. 🚀

Prediction markets are already transforming gambling, finance, and even education. Why? Because time and again, they've shown something wild: when everyday people make independent predictions, the collective accuracy often beats the so-called experts.

As Atanasov et al. (2017) put it: "Prediction polls, especially those that use weighting or extremization, outperform prediction markets in terms of accuracy, particularly early in the life of long-duration questions."

That's the magic of the wisdom of the crowd and Drill is here to channel that power, not just for fun, but for building knowledge and sharpening insights.

Here's the deal:

Drill Token is not a security or an investment contract.

Instead, it's a membership + participation token. It unlocks your role in the Drill community, gives you a say in governance, and rewards you for engaging.

We're keeping it exclusive: membership NFTS are capped at 1,000 Drill Burners.

As a Drill Burner, Here re a few things you'll be involved in:

- 🔥 Community strategy games
- 🔥 Hedera Ecosystem collabs and perks
- 🔥 Prediction & Rewards
- 🔥 Rewards for participation and learning

In other words: you'll get smarter, have fun, and earn recognition while contributing to something bigger than yourself.

And that's just the start... we've got more surprises in the works (but can't spill everything yet). Oh, and if you're part of the Hedera (HBAR) ecosystem, you'll feel right at home—we're proud to call ourselves Hbarbarians, building alongside the broader community.

The mission is clear:

- 👉 Build a lasting, knowledgeable, and sharp community of Drill Burners.
- 👉 Refine prediction with surgical precision.
- 👉 Become the crew everyone else envies.

So, the only question left is: Will you become a Drill Burner? 🤖🔥

Drill Launch Timeline

- Phase 1 - Drill WL
- Phase 2 - Drill NFT Sale
- Phase 3 - Drill Token TGE (Token ID: TBD)
- Phase 4 - Drill Token airdrop for NFT holders
- Phase 5 - Drill Buy and burn reveal.
- Phase 6 - Drill NFT Utility Launch
- Phase 7 - Drill Partners and non-holders (P&N members)
- Phase 8 - Confidence Unlocks

Exclusive Membership - WL & INO

There will only ever be 1,000 Membership NFTs. 🔥

This ensures the Drill community stays tight-knit, focused, and highly engaged. Access to the Member Zone will be token-gated, requiring one of 7 unique NFT types to enter.

From the very start, our priority is on NFT holders, working together to sharpen skills, expand knowledge, and build a community unlike any other.

Here's how it works:

One Whitelist NFTs grants access to mint one Membership NFT. After minting, the whitelist NFT is burned. After the Drill Token is generated, Drill NFT holders will receive the number of tokens assigned to their NFT tier. To keep the community authentic, minting is limited to one per account.

There are only two ways to secure one of the 1,000 whitelist spots:

1. SentX - The leading NFT marketplace on Hedera.
2. Follow us on X (Twitter) for updates on whitelist giveaways.

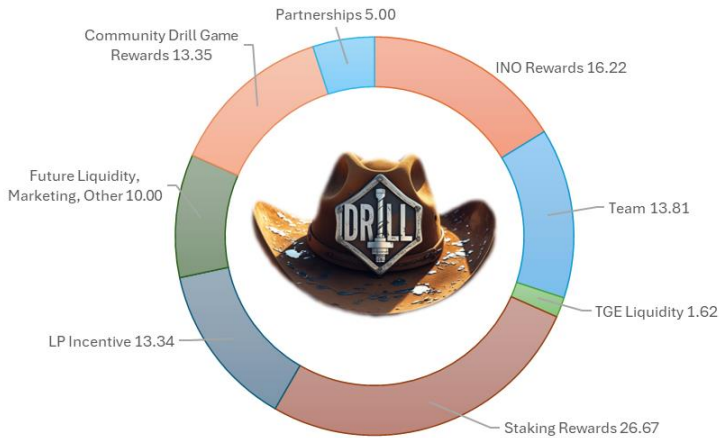

- WL Amount - 1000
- WL cost - \$20 in Hbar
- Drill launch: \$1 in hbar
 - NFT holders get a discount
- NFT Amount 1000
- 486,500 Drill released at TGE

	INO Tier	Holders	Drill \$	# of Drill	\$ Per NFT
1	🔴	20	0.8	1,000	800
2	🟠	50	0.85	800	680
3	🟡	100	0.87	700	609
4	🟢	150	0.9	600	540
5	🟣	200	0.92	500	460
6	🟤	225	0.95	400	380
7	🟥	255	0.97	300	291

Drill Distribution

Drill Token Distribution (%)

Drill Token Highlight

- Initial Supply: 3,000,000 Drill Tokens
- Max Supply: 10 million based on Confidence Unlocks (CUL)
- Initial Supply (INO): < 500,000 Drill Tokens
- Token % of 3m supply for community rewards: 55%

Token Distribution	%	Release Period
INO Rewards	16.22	At launch
Team	13.81	At Launch to 8 Years (1.73% Per Year)
TGE Liquidity	1.62	At launch
Staking Rewards	26.67	> 8 Years
LP Incentive	13.34	> 8 Years
Future Liquidity, Marketing, Other	10.00	As Needed
Community Drill Game Rewards	13.35	>8 years
Partnerships	5.00	As Needed
	100.00	

Confidence Unlocks

Advanced Burn Rate

Confidence Unlock Phase	Drill Tokens	\$Drill threshold = or >
CUL-1	1,000,000	\$11
CUL-2	1,000,000	\$22
CUL-3	1,000,000	\$33
CUL-4	1,000,000	\$44
CUL-5	1,000,000	\$55
CUL-6	1,000,000	\$66
CUL-7	1,000,000	\$77

To Increase the future rate of our burn, 7 million tokens for energy to burn partnerships will be reserved. This tokens will be unlocked based on ecosystem confidence in the project.

The best way to do this is by the price of our community \$Drill rewards token starting at an 11x to 77X from TGE.

CUL will be done in a way to not destabilize the Drill reward token

The Team

As of today, Drill is a team of one and that's by design.

Leveraging the tools and systems available within the Hedera ecosystem makes it possible to build and launch efficiently at this stage. As the project grows, so will the team.

For now, I'll go by my cryptoverse name: Mansa. Many of you in the Hedera community may have already crossed paths with me and with a bit of digging I am sure you online detective can figure out who I am.

A little background (without giving too much away):

- 🔥 I've been fully active in crypto and especially Hedera for over 6 years.
- 🔥 For more than a decade, I've worked in the energy sector at a well-known global firm.
- 🔥 Academically, I hold Bachelor's and Master's degrees in science-related fields, and I'm currently pursuing an MBA at one of the top Ivy league schools in the world

Bringing this project to life has been a long-time dream, built on years of experience and passion for the ecosystem.

Most importantly, I want to stress this: integrity is at the core of how I operate. You can expect that same principle to guide Drill at every step.

Let's Go! 🚀
